University Preparation

The programme is directed at high school graduates who would like to study in Austria. In the German course you perfect your knowledge of German. The ActiLingua university expert advises you on the right choice of university and the enrolment process, and can also help you regarding registration at a suitable private/public university or university of applied sciences in Austria with Bachelor or Master degree programmes.

University Preparation

A certificate preparation course in addition to your German course prepares you for taking an official German language exam.
